

Shooting/Scoring camp

Low player-to-coach ratio, our Shooting and Scoring clinic will provide players with the attention to detail and high repetitions needed to master the techniques and mechanics of an effortless shot. With the game becoming faster, it is necessary for players to be able to release the puck as quickly and effectively as possible under heavy pressure. Our sessions will focus on improving the fundamentals of a quick release shot while increasing its overall velocity and accuracy and applying these skills to game situations.

This shooting clinic will include:

- Wrist shot, snap shot, backhand, slap shot, one-timers
- Shooting in stride/in motion shots
- Quick release
- Shooting under pressure
- Changing the shooting angle
